Software Engineer (Front-end)

PROFESSIONAL SUMMARY

Motivated Front-End Software Engineering graduate, with skills honed to build user-friendly and dynamic web applications. With a strong foundation in HTML, CSS, JavaScript, React and TypeScript, with exposure to backend integration. Seeking an **internship, learnership, or junior role** to gain industry experience, contribute to real-world projects, and further develop technical skills.

EDUCATION

ALX Africa — **Braamfontein, Johannesburg**
Software Engineering Certificate — *Completed: August 2024*

- **Specialization:** Front-End Development
- **Relevant Coursework:** Web Development, Algorithms and Data Structures, User Interface Design, Software Engineering Principles

PROJECT

Task-Goal Application
Front-End Web Application

- Technologies: React.js, JavaScript, TypeScript, HTML, CSS, Node.js, Express.
  - Designed and developed a task management web application enabling users to create goals, manage tasks, and track progress in real time.
  - Built reusable React components and implemented state management for dynamic UI updates.
  - Integrated backend services using Node.js and Express to support data handling and updates.
  - Applied responsive design principles to ensure usability across mobile and desktop devices.
  - Used Git and GitHub for version control and collaborative development practices.
- **GitHub Repository:** Task-Goal Application

TECHNICAL SKILLS

- **Programming Languages:** Python, HTML, CSS, JavaScript, SQL, C
- **Frameworks & Libraries:** ReactJS, NodeJS, ExpressJS
- **Tools & Technologies:** Git, GitHub, npm, Webpack, Chrome Developer Tools, VS Code
- **Web Dev Skills:** Responsive Design, Version Control, REST API Integration
